Flow-Liner® Build Your Own Trailer

Flow-Liner®'s newest trailer option allows the pipe liner to customize their own system by purchasing the essential accessories to build their own trenchless technology trailer. This system provides all the necessities for an efficient and successful pipe liner, while giving the freedom to create their preferred ergonomic set-up and the option to include other systems of their choosing. The below package can be modified to fit your individual needs.

Build Your Own Trailer Accessories
